

Park Bag Essentials

Fuel Rod- a device charger that can be traded at kiosks for a fresh one (buy the kit on amazon and then trade around the resorts to keep your phone charged all day)

Having a comfortable park day starts with being prepared. Here are some things I always have with me:

- Sunglasses
- Fuel Rod
- Moleskin- put on areas of feet prone to blisters
- Disposable Poncho- Grab a pack so you can throw them away after use
- Sunhat
- Megababe Friction Stick
- Sunscreen
- Brita Filtered Water Bottle- You can get free water at quick service locations and water fill up stations instead of paying \$5 for water bottles.
